ABSTRACT

Four curriculum units for use at the kindergarten level focus on: (1) school jobs and the school community; (2) farming jobs and lifestyle; (3) family jobs at home and outside the home; and (4) transportation jobs and its industry. Objectives linking the units emphasize increasing students' awareness of and appreciation for each unit's jobs. The first three units list suggested questions; teaching techniques and learning activities; and resources and materials and include resource lists covering: childrens' books, teachers' books, flannel board or activity kits, filmstrips, cassettes, study prints, records, puzzles, and films related to the unit topics. The fourth unit adds broad concepts to the behavioral objectives to be developed. Children's previous transportation experiences are emphasized in discussion topics. Occupations to be mentioned, activities, audio-visual materials, and equipment and general materials are listed in chart form for the unit's treatment of land, water, air, and space transportation. INTRODUCTION TO: The School
"Pat-A-Cake, Pat-A-Cake"

This unit is an introduction of the kindergarten child to his new environment in the school community. It is presented in a way that will help develop an appreciation and understanding of the various job roles in the school. Hopefully, it will help the child develop an awareness of his role in being a helpful, cooperative and responsible student.

BROAD OBJECTIVES:

1. To present appropriate occupational information about the occupations of the school staff and promote an appreciation and understanding of each school helper's role.
2. To help the child become aware of his importance as a responsible, helpful, cooperative citizen in the school community.

CONTENT QUESTIONS	TECHNIQUES AND ACTIVITIES	RESOURCES AND MATERIALS	TEACHER'S OWN MATERIALS
1. Why do we need helpers in the classroom? Why is it important for us to share our jobs? Is it easier for one person to help? Would you like to be a helper?	As an introduction to this school unit, a helper chart drawn as a gingerbread man will be in classroom with each child's name on separate cards to be chosen for classroom duties each day. Read and discuss book or filmstrip.	Book: <u>The Gingerbread Man</u> by Nancy Nolte -or- Filmstrip: The Gingerbread Man (SVE)	

CONTENT QUESTIONS	TECHNIQUES AND ACTIVITIES	RESOURCES AND MATERIALS	TEACHERS' OWN MATERIALS
2. Would you like to make your own gingerbread man like the one on the helper chart?	Children will help make a real gingerbread man and decorate with raisin eyes, etc. Class will take him to cafeteria to put him in oven. (After baking, teacher will put in freezer for future use.	<p>Book: <u>Little Bear Learns to Read the Cookbook</u> by Mariana</p> <p>Recipe for gingerbread man: (cream)</p> <p>2/3 cup shortening</p> <p>1-1/4 cups sugar (add to 1st)</p> <p>2 tbsp. molasses</p> <p>2 eggs</p> <p>2 tbsp. sour milk (add)</p> <p>1 tsp. soda</p> <p>3 cups flour</p> <p>1 tsp. salt</p> <p>1 tsp. b. powder (add)</p> <p>1 tsp. cinnamon</p> <p>1/2 tsp. ginger</p> <p>1/2 tsp. nutmeg</p> <p>Pour into gingerbread man pan and bake 375°</p>	
3. Who are the helpers that work in our school kitchen? How do they help us? What jobs do you see them doing?	Introduce all cafeteria workers. Let children observe them working with equipment. Children will role play these workers in interest centers.	<p>Flannel board:</p> <p>School Helpers (Instructo)</p> <p>Study print: Teaching Pictures (D. Cook Pub. Co.)</p>

INTRODUCTION TO: The Farm
"In The Barnyard"

Children in the city need to become aware of farm life and farm animals. They need to gain an understanding of the interdependence of people who live and work on the farm to those who live and work in the city.

First grade skills and subject areas can be readily developed in this unit.

BROAD OBJECTIVES:

1. To help the children become familiar with farm life and farm animals, and help them to gain an appreciation of life on a farm.
2. To help the child become aware of the interdependence of the farmer to us--how we depend on the farmer for food and how he depends on us for his livelihood.
3. To extend the child's knowledge of the duties of a farmer in daily life.

INTRODUCTION TO: The Family
Family Affair

The family unit follows the self unit and now directs the child's thinking from self to his family. He becomes aware of the jobs of each family member and of his role as a cooperative group member.

The child begins to realize there are a variety of jobs within his own home and particularly the occupations of his parents--both in the home and in the community.

Kindergarten objectives or goals, activities, and skills will correlate well throughout this unit.

BROAD OBJECTIVES:

1. To develop the child's awareness of home and his job role as a cooperative family member.
2. To help the child understand and appreciate his parents' jobs in their occupations and at home.

CONTENT QUESTIONS	TECHNIQUES AND ACTIVITIES	RESOURCES AND MATERIALS	TEACHERS' OWN MATERIALS

PHONE: 216-466-4851

BROAD OBJECTIVES:

1. To help the child realize the importance of transportation in his own everyday life.
2. To help the child develop an appreciation for people who work in the area of transportation.
3. To provide opportunities for the children to:
 - a) relate their own transportation experiences to the group.
 - b) use skills of problem solving and critical thinking.
 - c) to do classifying.
 - d) to use their creative talents

BROAD CONCEPTS TO BE DEVELOPED:

1. There are many ways of moving and all creatures have some way of moving.
2. The meaning of transportation.
3. The way that transportation has developed over the years.
4. The transportation world provides many people with jobs.

UNIT PREPARATION:

1. Arrange room so that there is an area large enough for children to sit on the floor in a circle during class discussions.
2. A large bulletin board should be divided into four areas marked: "LAND", "WATER", "AIR", "SPACE" with a main heading of "TRANSPORTATION".
3. Have available the following materials for use in creative crafts:
 - a) paper (white and colored construction)
 - b) crayons
 - c) water paints and brushes

3. d) tempera paints
 - e) paste
 - f) wood scraps of all sizes
 - g) wooden wheels
 - h) nails of various sizes, screws, sandpaper
 - i) carpentry tools
 - j) workbench or saw horses
 - k) shellac
 - l) various transportation toys and building blocks
4. Set up activity centers for use with transportation toys and construction and building materials. Have an activity time each day.
